

HAYAGRIVE P

Full-Stack & AI Engineer | Patent Holder

+91 9789062698 hayagrive.official@gmail.com LinkedIn GitHub Portfolio

SUMMARY

Full-Stack & AI engineer specializing in production-grade SaaS development. Shipped **4 production apps** including a multi-tenant RAG platform with vector search and a GitHub analytics SaaS with a custom health-scoring algorithm. **Patent holder** for an autonomous amphibious delivery vehicle. Hands-on across React, Node.js, FastAPI, LLM integration (Groq / Llama 3), and performance testing with JMeter.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript (ES6+), SQL, C
Frontend: React 19, Vite, Tailwind CSS, D3.js, Framer Motion, Recharts, Zustand, React Router
Backend: Node.js, Express, FastAPI, REST APIs, Socket.io, JWT, OAuth 2.0, bcrypt
AI / ML: Groq API, Llama 3 / 3.3, LangChain, RAG pipelines, ChromaDB, vector embeddings, prompt engineering
Databases & Cloud: PostgreSQL, MongoDB, MySQL, ChromaDB, Redis (Upstash); Vercel, Render, Neon, Git
Perf & Testing: Apache JMeter (proficient), BlazeMeter, Postman; awareness of LoadRunner, Cyara, StarTrinity
Spoken Languages: English (Fluent), Hindi (Fluent), Tamil (Native), Japanese (Conversational)

EXPERIENCE

Altruisty Innovation Pvt Ltd

Jun 2025 – Aug 2025

Full-Stack Web Development Intern

Chennai, India

- Designed and shipped **TaskPilot** – a production-deployed multi-user task management platform – as the capstone internship deliverable, owning the full MERN architecture end-to-end
- Implemented JWT + bcrypt authentication, protected routes, and Recharts analytics dashboards visualizing task progress, priority distribution, and team load
- Deployed full stack to Vercel with structured Git/GitHub workflow, validator-based input sanitization, and CORS-secured Express 5 API layer

PROJECTS

DocuMind — Multi-Tenant RAG SaaS | [Live](#) | [GitHub](#)

Tech: React, Node, PostgreSQL, ChromaDB, LangChain, Groq, Socket.io, Redis

- Architected a complete **RAG pipeline** – ingestion, chunking, vector embedding, ChromaDB similarity search, and Groq LLM answer generation – over user-uploaded PDF and DOCX documents
- Engineered **multi-tenant data isolation** across PostgreSQL with full RBAC, Upstash Redis caching for embeddings, and Socket.io for real-time multi-user document collaboration

DevPulse — GitHub Analytics & Code Health SaaS | [Live](#) | [GitHub](#)

Tech: React 19, D3.js, Tailwind v4, Node.js, Express, PostgreSQL (Neon), Groq / Llama 3.3 70B

- Designed a **custom repository health-scoring algorithm** (0–100) weighted across documentation, activity, and quality; built 4 custom D3.js visualizations including a 52-week commit heatmap
- Integrated **Llama 3.3 70B via Groq** for personalized weekly AI digests; solved Vercel ↔ Render cross-origin session persistence using PostgreSQL session store + SameSite=None cookies

AI Interview Coach — Voice-Based Interview Prep | [GitHub](#)

Tech: React, Vite, Node.js, Express, PostgreSQL, Groq API (Llama 3), pdf-parse, JWT

- Built end-to-end pipeline: **PDF resume parsing** → LLM-generated personalized questions → voice-recorded answers → AI-scored feedback, with JWT-auth'd session history dashboard

TaskPilot — Task & Team Management Platform | [Live](#) | [GitHub](#)

Tech: React 19, Tailwind v4, Recharts, Node.js, Express 5, MongoDB, JWT, bcrypt

- Built multi-user task management with JWT + bcrypt auth, task CRUD with priority/due-date workflows, and a **Team Workspace** feature with member cards, task assignment, and workspace-level Recharts analytics

SustainDine — 🦾 Patented Autonomous Amphibious Delivery Vehicle

Tech: Python, Arduino, OpenCV, IoT sensors, GPS, OpenStreetMap API

- Developed the full software stack for a **patent-granted** solar/dynamo-powered amphibious delivery vehicle for rural last-mile logistics – OpenCV obstacle detection, real-time GPS navigation via OpenStreetMap, and Arduino-Python control bridge

ACHIEVEMENTS & CERTIFICATIONS

- Granted Indian Patent** – SustainDine Autonomous Amphibious Delivery Vehicle · **Finalist**, IEEE YESIST'12 2025 Grand Finale · **Best IEEE Student Volunteer** · Top 100 Chennai, ICT Talkathon
- Certifications (In Progress):** AWS Certified Cloud Practitioner (CLF-C02) · Microsoft Azure AI Fundamentals (AI-900)
- DSA:** Active on LeetCode & GeeksforGeeks (Java); regular problem-solving across arrays, strings, trees, graphs, and DP

EDUCATION

Sri Sai Ram Institute of Technology, Chennai

B.Tech in Information Technology

2022 – 2026

CGPA: 7.84 / 10
